

Pump Machine Series - KCP

Adjustable flow, Intelligent pump machine

User can adjustable the flow by rotating the knob, this pump can meet various flow requirement.
And easy to change the tube. The noise is very low, it has three rotors and the pulse is moderate.

Tubing length:

135mm(29.5mm exposed), BPT

175mm(49.5mm exposed), Silicon tube

Operating condition:

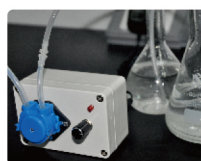

Ambient temperature 0 ~ 40°C, Relative humidity : < 80%

Weight:

270g (without power source) 330 (with power source)

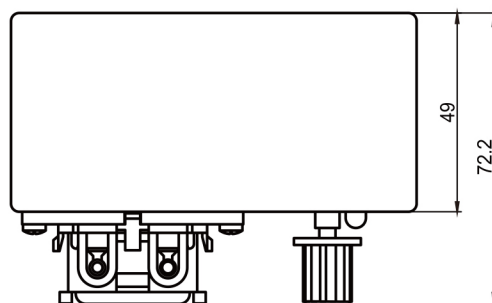

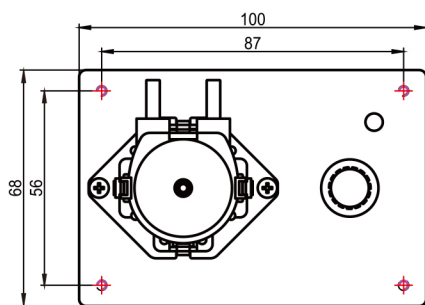

Teaching equipment
School, research institutes

Experiment
Dispense the liquid
Extract and filling the
liquid on time

Size(Unit: mm)

| Code | | S02 | S04 | S06 | S08 | S10 | B06 | B08 |
